Jeffrey C. Mullis  
Primary Examiner  
Art Unit 1711

(Examiner/SPE Signature)

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner contacted applicants' attorney to make claim 4 dependent on claim 1 as in the Examiner's amendment since it appeared to the examiner that the rejection of claim 4 over the prior art was not otherwise addressed. With regard to applicants condition of melt index recited by the claims, ASTM D1238, it was agreed that it was clear that "condition E" was intended when read in light of applicants specification (page 10, line 10). .
